

FI Tuning

Do you want more Horse Power, Torque, and Performance, all with better fuel economy? *FITuning* can provide that for you at a great price! Every vehicle has an ECU (Engine Control Unit). The ECU is the brain of your vehicle. It controls every function of your vehicle, fuel pressure, air intake, and many other parameters. The owners of *FI Tuning* are very selective when seeking Reps to implement their program. The facilities chosen by *FI Tuning* must have technicians who match the same high quality and high standard set by them in Europe and the USA. At *Auto Haus Motors*, our *FI Tuning* specialists are highly trained and will reprogram your car so it can be utilized to its full potential. Our trained professionals will upgrade the software in your ECU, resulting in **more horse power and torque**, while at the same time, **improving fuel economy**.

From exotic twin turbo conversions, to basic software upgrades, *FITuning* can make your European car outperform the rest. The majority of our customers want to give their 'rides' a little extra kick, and this can be done with a simple, software upgrade within the vehicle's ECU. One of our certified technicians will read the ECU's software, save the stock file, install the modified file and *presto*, new found power and performance, all with improved fuel economy. It is by far, the best 'bang for the buck' a car owner can possibly endeavor. Already, we have provided performance upgrades for our customers with 'jaw dropping' measures, such as a **30% horsepower gain** and **40% torque gains** all due to the *FITuning* performance software upgrade service.

FI Tuning is quickly becoming one of the largest and best tuning companies in the United States and Europe. *FI Tuning* has the experience and know-how to unlock your vehicle's full potential. Your car's ECU was detuned when it was designed to enter the United States market so it could meet the United States criteria. *FI tuning* allows your car to be tuned to its full potential. It is the latest and most 'state of the art' way to give you the power and torque you need and deserve. So, make your appointment today! Contact Rob at *Auto Haus Motors*, and he will help get your European car tuned to its full potential only a select few to date have been able to experience.
